Figure 15

The diagram illustrates a system architecture divided into two main sections: **Client Side** (214) and **Server Side** (212).

Client Side (214):

- Internet (228)** and **Consumer Electronics (230)** are at the top, connected to the **Stored Media** block.
- Live Input Camera/Microphone/Keyboard/Mouse (224)** is connected to the **Stored Media** block and the **Creator Studio**.
- Stored Media (226)** contains **Video**, **Audio**, **Still images**, and **3D Models**.
- Creator Studio (222)** is connected to the **Stored Media** block and the **Personal Communicator 1**.
- Personal Communicator 1 (218)** is connected to the **Live Input Camera/Microphone/Keyboard/Mouse**, the **Stored Media**, the **Creator Studio**, and the **WWW Browser**.
- WWW Browser (216)** is connected to the **Personal Communicator 1**.

Server Side (212):

- Communication Services (236)** and **Message Hosting (234)** are connected to the **Personal Communicator 1** and the **Personal Communicator 2**.
- WWW Server (232)** is connected to the **Personal Communicator 1** and the **WWW Browser**.

Client Side (214) - Bottom:

- Personal Communicator 2** is connected to the **Personal Communicator 1** and the **Communication Services**.
- Personal Communicator 3** is shown in a dashed box, connected to the **Personal Communicator 2** and the **Communication Services**.

Client Side (214) is labeled at the bottom right.
